BORN FROM A GREAT VISION, FOR A GREATER CAUSE

Dear Friend,

Our lives usually remain scattered, and from the early hours of the day to the late hours of the night, time sees us running from one place to another in the effort to bring some harmony into our lives. But what if that harmony was built into one's place of residence? This is the thought that led to the creation of Pride World City.

The idea for Wellington was conceived from the vision to bring ultimate comfort to people's lives, with 110+ amenities, the most in any project. It is a world where every imaginable need is right at your doorstep. And often, literally. Each building has its own café and grocery stores which have no outsider access.

Many comforts not seen usually in a residency have been thoughtfully curated here in the 7 acres landscape – the largest in Pune. Wellington is crafted to be a world of its own, and support people's lives in every way imaginable.

WIND FLOW

LIFE HERE IS A BREEZY AFFAIR

The aerodynamic shape of the building allows abundant natural light and air to enter the apartments, making them breezy and relaxing spaces.

CROSS VENTILATION (WIND ENERGY)

The natural open setting of the plot & aerodynamic shape building profile enable free flow of the wind across all the flats, which results in natural fresh air throughout the building. The common passage is well ventilated through the opening, planned from lobby and open staircase.

UNOBSTRUCTED VIEWS (VISUAL ENERGY)

The ergonomically designed shape building plan is designed to offer each flat unobstructed views of the avenue view on one side and the garden view on the other.
